

Attention Sewers!!

Your help is still needed. Thank you for all the masks you have provided to the community and I know some of you have continued sewing masks for the PRHC drive. Now that they have a good supply, the Peterborough Family Health Team is requesting masks to provide to the Dr's and NP's for clients during their office visits as masks for all clients are now part of the recommended protocol. If you would like to continue to sew, you can drop these off at either the L.I.F.E. Services Centre or to 185 King St. at the Public Health Building and leave with the security guard downstairs. Please let him/her know that they are masks for the Family Health Team. If anybody requires more material to sew, please contact Donna at 705-295-4421 to advise and someone will contact you to provide this.

Chi Miigwetch!
