

2021 Federal Election Party Platforms DISCLAIMER →

This is preliminary information gleaned from the parties, these do not constitute the official platforms as those have not been released as of yet. We will continue to update the platform document throughout the campaign and provide updates. All wording choices have come directly from the political parties themselves. Chiefs of Ontario is a non-partisan organization and does not endorse any political party.

PROJECT	2021 Federal Election Party Platforms	ORGANIZATION	Chiefs of Ontario
SECTOR	Policy and Communications Sector	DATE	07/09/2021

PARTY	RESOURCES	INDIGENOUS ISSUES	PANDEMIC RESPONSE AND HEALTH CARE	ECONOMY AND TAXATION	ENVIRONMENT
Conservative Party of Canada	https://www.conservative.ca/ https://www.conservative.ca/about-us/governing-documents/ https://www.conservative.ca/team/2019-candidates/	Expand the creation of Indigenous Protected and Conserved Areas (See Climate Change and Environment).	Require unvaccinated federal workers to pass a COVID-19 rapid test each day as well as have unvaccinated passengers on buses, planes and other transports to show the results of a recent negative test or pass a rapid test.	When safe, launch a one-month Dine and Discover Program that gives a 50 per cent rebate for food and non-alcoholic drinks for those dining from Monday to Wednesday.	Implement a national Personal Low Carbon Savings Account, a carbon-pricing scheme that would see Canadians paying a surcharge when they buy consumer fossil fuels, with the money going into a savings account earmarked for green purchases.
		Fund and implement Truth and Reconciliation Calls to Action 71 to 76 involving missing children.	Call an immediate public inquiry to examine the government's pandemic response.	Allow foreign telecom firms to offer services in Canada if their countries reciprocate.	Price carbon starting at \$20/tonne and increasing to a cap of \$50/tonne.
		Work with Indigenous communities including by expanding the creation of Indigenous protected and conserved areas managed and stewarded by Indigenous guardians.	Overhaul Canada's Pandemic Plan and preparedness to include domestic vaccine research, trials development and manufacturing capacity and readiness; and to include a focus on infectious diseases and bioterrorism threats; create the "homegrown development and production" of vaccines by Canadian firms, "such as Providence Therapeutics, Sanofi, Medicago and others."	Connect all of Canada to high-speed internet by 2025.	Tie Canada's industrial carbon price to that of the European Union and the United States, and based on progress towards Paris targets, be prepared to set industrial carbon prices on a path to \$170/tonne by 2030.
		Create a Canadian Indigenous Opportunities Corporation, with an initial \$5 billion of capital, that would support First Nations and Inuit organizations seeking to purchase equity stakes in major projects.	Overhaul the National Emergency Stockpile System, federal lab testing processes, public health intelligence gathering systems and risk communications infrastructure.	Give a 15 per cent tax credit for vacation expenses of up to \$1,000 per person for citizens vacationing in Canada in 2022 under the Explore and Support Canada initiative.	Study the imposition of a carbon border tariff which would reflect the amount of carbon emissions attributed to goods imported into Canada.
		Provide \$4 million over three years in targeted funding for the hiring and training of local and regional economic development officers, to encourage Indigenous business success; modernize the First Nations Land Management Act; and develop an Indigenous Business Mentorship Program.	Develop a national system for sharing data across jurisdictions on pathogen transmission, immunity levels, and vaccination rates.	Make oil pipeline construction a priority; implement a federal LNG Export Strategy.	Introduce a zero emission vehicle mandate based on British Columbia's, requiring 30% of light duty vehicles sold to be zero emissions by 2030.
		Spend \$25 million on a national police support and community training program to reduce incarceration rates of Indigenous people.	End the importation of and trade in wild or exotic animals and their products that carry an elevated risk of spreading zoonotic diseases.	Invest \$1.5 billion to help Newfoundland and Labrador's offshore oil industry.	Invest \$1 billion in building out electric-vehicle manufacturing in Canada, including battery production, parts manufacturing, micro-mobility solutions and electric trucks.
		Recognize safe drinking water as a fundamental human right and end long-term drinking water advisories; target high-risk water systems; work with Indigenous communities to ensure water systems investments are protected.	Establish a threat level warning system to assign risk levels from a scale of 1-5 for Canadians when a new virus is detected.	"Resolve the Softwood Lumber Dispute with the United States."	Invest \$1 billion in deploying hydrogen technology including hydrogen vehicles.
		Provide \$1 billion over five years to boost funding for Indigenous mental health and drug treatment programs.	Assign ultimate responsibility for the Public Health Agency of Canada to a qualified physician and public health expert with field and front line experience.	Require large federally-regulated employers include workers on their boards of directors.	Work with the U.S. to set a standard for electric vehicle charging and add mandatory charging stations or wiring required for chargers to the national building code.
			Restore the dual leadership role of the National Microbiology Lab in Winnipeg, within the Public Health Agency of Canada, and maintain access security and stringent screening protocols at the lab.	Change the Canada Labour Code to help unions organize big firms with histories of anti-labour activities.	Require every building where the federal government has employees or offers services to the public and provides parking to have a charging station by 2025.
			Reinstate the tariff on imported personal protective equipment (PPE); help manufacturing of essential public health equipment and pharmaceuticals in Canada by having governments favour Canadian producers.	Double the residency deduction for the north, boost the basic amount in the intermediate zone to match the northern zone and add the Northern Peninsula of Newfoundland, new parts of northern Saskatchewan and new parts of northwestern B.C. to the zone.	Introduce a Renewable Natural Gas Mandate, based on British Columbia's policy, requiring 15 per cent of downstream consumption to be renewable by 2030.
	Prevent travellers from areas where new variants are detected from entering Canada.	Establish a Canadian Advanced Research Agency to fund cutting-edge technologies such as carbon capture and storage, hydrogen fuel, small modular reactors, electric vehicle development and pharmaceutical research and production.	Finalize and improve Clean Fuel Regulations, with a low carbon fuel standard based on B.C.'s policy to achieve a 20 per cent reduction in carbon intensity for transport fuels.		
	Require a rapid test (or a PCR) test of everyone entering Canada.	Give Canadians a month-long "holiday" from paying the five per cent federal goods and services tax.	Pilot the use of Canadian renewable fuels by the Canadian Armed Forces.		
	Speed up the approval of rapid tests approved by other jurisdictions, such as the U.K., U.S., the European Union and Taiwan.	Double the Canada Workers Benefit to a maximum of \$2,800 per person or \$5,000 per family.	Introduce a tax credit to rapidly accelerate the deployment of carbon-capture, utilization and storage technology in the energy sector and other industries, with early mover bonus for facilities with tech in place by 2030.		

	Stop the export of deadly viruses to "jurisdictions that cannot be trusted."	Upgrade the office of the Taxpayer Ombudsman to an officer of Parliament.	Invest an additional \$3 billion by 2030 in natural climate solutions focused on management of forest, crop and grazing lands and restoration of grasslands, wetlands and forests.
	Restart the Global Public Health Intelligence Network.	Review the tax system and change penalties so first-time errors receive minor fines.	Provide tax relief to the first five facilities that use new technology that provides meaningful emissions reductions but is costly.
	Provide incentives to employers to provide mental health coverage to employees.	Introduce a five per cent tax credit for capital investments made in 2022-2023; for small businesses the first \$25,000 is refundable.	Develop a National Clean Energy Strategy.
	Create a nationwide, three-digit suicide prevention hotline.	Up the disbursement quota for charitable foundations to 7.5 per cent a year.	Develop a Clean Buildings Plan, including a regulatory and financial framework that will facilitate Energy Savings Performance Contracting, with a bonus for retrofits completed by 2030.
	Within 100 days of forming the government, meet with provinces to propose a new agreement that would boost the annual growth rate of the Canada Health Transfer to at least six per cent, adding nearly \$60 billion to the system over 10 years.	Let businesses with less than \$60,000 in revenues use simple cash accounting.	Implement a Liquefied Natural Gas export strategy.
	Offer employers a tax credit of 25 per cent of the cost of additional mental health coverage for the first three years after adding it to employee benefit plans.	Exempt Canadian start-ups that have at least 2/3 of their employees in Canada from the plan to tax stock options.	Appoint a national disaster resilience advisor to the Privy Council Office.
	Create a pilot program to provide \$150 million over three years in grants to nonprofits and charities that deliver mental health and wellness programs.	Increase the disability supplement from \$744 to \$1,500.	Establish a residential high risk flood insurance program.
	Invest \$325 over three years to create 1,000 residential drug treatment beds and build 50 recovery community centres.	Work towards a single income tax return for Quebec.	Devise a national climate adaptation strategy and a natural infrastructure plan.
	Reinstate the 10-day waiting period for medical assistance in dying, restore the requirement for two independent witnesses to be present and repeal the provision of Bill C-7 that allows medical assistance in dying for patients with mental health challenges.	Introduce flow-through shares (a tax-based financing incentive) to make investment in small tech start-ups more attractive.	Fund continued building of the Trans-Canada Trail with \$12.5 million a year.
	Double direct federal investments in palliative care.	Cut the income tax rate in half for new patented technologies developed in Canada.	End the restrictions on exporting oil via tanks from B.C.'s northern coast.
	Harmonize ICU training to ensure that ICU credentials are transferable among jurisdictions.	Introduce a tax credit for Carbon Capture, Utilization and Storage technology (See Climate Change and Environment).	Change the impact assessment process for mining processes so that communities can't cause "unnecessarily delays in providing approvals."
		Implement a new carbon pricing scheme (See Climate Change and Environment).	Reach a target of conserving 17 per cent of Canada's land and water with a goal to work towards 25 per cent.
		Tax relief for facilities that buy high-cost emissions reduction technology (See Climate Change and Environment).	Restore funding to the National Wetland Conservation Fund; the Recreational Fisheries Conservation Partnership Program; and the Lake Simcoe Clean-Up Fund.
			Ban the export of plastic waste unless the exporter proves that it will be recycled.

<p>Liberal Party of Canada</p> <p>https://www.liberal.ca/ https://liberal.ca/your-liberal-candidates/</p>	Create opportunities in federal procurement for Indigenous and Black businesses	Require a vaccine mandate for federal public servants plus for employees of federally regulated air, rail and marine transportation sectors as well as commercial passengers on planes, interprovincial trains and overnight marine vessels.	Establish a \$15 per hour federal minimum wage, that will rise with inflation; if lower than provincial or territorial minimum wages, then higher rates prevail.	Create a "census of the environment" to monitor trends, with \$25.6 million over five years to Statistics Canada.
	Support access to trauma-informed, Indigenous-led mental health and wellness services, for \$597.6 million over three years, including renewing funding of the Indian Residential Schools Health Supports Program and Crisis Line.	Allocate up to \$375 million to our international COVID-19 response, especially health issues in developing nations	Reduce the income level at which the Canada Workers Benefit starts to \$22,944 for individuals, and \$26,177 for families. The tax refund is up to \$2,400.	Invest \$5 billion over seven years in the Net Zero Accelerator to help companies reduce emissions
	Manage the health impacts of climate change on First Nations and Inuit communities, including impacts of extreme weather events, with \$125.2 million over four years.	Give \$2.2 billion over seven years to build and expand the life sciences sector including \$60 million for the Vaccine and Infectious Disease Organization and \$45 million to the Stem Cell Network.	Make it easier for Canadians to find unclaimed federal assets (See Democracy & Governance.)	Aid clean energy technology projects
	Invest in Indigenous early learning and child care with \$1.4 billion over five years, including \$264 million to repair and renovate existing centres and \$420 million to build new ones.	Support large airports invest in COVID-19 testing infrastructure with \$82.5 million.	Make Employment Insurance simpler and more accessible, including uniform access to benefits across regions, with \$3.9 billion over three years.	Reduce by 50 per cent the corporate and small business income tax rates for firms that manufacture zero-emission technologies.
	Increase the hiring of nurses and other medical professionals in isolated First Nations communities, at a cost of \$354 million over five years.	Help the Canadian Air Transport Security Authority improve screening practices to prevent the transmission of COVID-19 with \$271 million.	Help the aerospace sector recover from the pandemic with \$250 million over three years.	Train 1,000 new community-based firefighters and purchase equipment because of extreme weather events.
	Provide more than \$6 billion over five years to support infrastructure maintenance and construction in Indigenous communities, as well as continue First Nations' community access to clean water and services with \$125.2 million over four years.	Provide \$3 billion over five years, starting in 2022-23, to ensure provinces and territories provide a standard of care in their long-term care homes.	Allow Canadian-controlled private firms to immediately expense up to \$1.5 million of eligible investments in each of the next three years, which will reduce federal revenues by \$2.2 billion over five years.	Provide \$2.3 billion over five years to achieve the 2025 target of protecting 25 per cent of the nation's area, plus \$976.8 million to meet the same goal in the oceans

<p>Reduce travel costs for Northerners without employer benefits by allowing claims of up to \$1,200 in eligible expenses, for a cost of \$125 million over five years.</p>	<p>Provide \$4 billion to help provinces and territories clear health-care system backlogs caused by the pandemic.</p>	<p>Renew the Pan-Canadian Artificial Intelligence Strategy with up to \$443.8 million over 10 years, including fund to commercialize AI innovations and attract academic talent.</p>	<p>Establish a Natural Infrastructure Fund for natural spaces and crossings to support biodiversity, such as in Toronto's ravines, with \$200 million over three years.</p>
<p>Expand the Aboriginal Entrepreneurship Program to support Indigenous-led businesses and communities, with an investment of \$42 million over three years; invest \$22 million over three years to increase the number of Indigenous women entrepreneurs.</p>	<p>Aid trauma and PTSD programs for populations at highest risk of COVID-19 trauma with \$50 million over two years.</p>	<p>Launch a National Quantum Strategy with \$360 million over seven years.</p>	<p>Create a Critical Battery Minerals Centre of Excellence at Natural Resources Canada for \$9.6 million over three years, and provide \$36.8 million over three years for R&D for battery mineral processing and refining.</p>
<p>Invest an additional \$2.2 billion over five years to build a safer and more inclusive society, in response to the national tragedy of missing and murdered Indigenous women and girls, including \$275 million to support Indigenous peoples' reclamation of Indigenous languages and \$126.7 million to promote health systems free of racism and discrimination.</p>	<p>Provide \$100 million over three years to Public Health Agency of Canada for mental health projects aimed at helping populations most impacted by COVID-19, including frontline workers and racialized Canadians.</p>	<p>Provide \$400 million for a temporary Community Services Recovery Fund to help charities and non-profits with economic recovery.</p>	<p>Help Measurement Canada develop and implement, with international partners, codes for zero-emission vehicle charging and fuelling stations, with \$56.1 million over five years; and another \$67.4 million over seven years to measure commercial transactions of low-carbon fuels.</p>
<p>Provide \$12.4 million over five years to Canadian Heritage to honour the survivors of residential schools and commemorate their legacy.</p>	<p>Add \$250 million over three years for expanded clinical research through the Canadian Institutes of Health Research Clinical Trials Fund.</p>	<p>Start the Regional Development Agency for British Columbia, with \$553.1 million over five years.</p>	<p>Implement a Low-Carbon Fuel Procurement Program for the federal government, with \$227.9 million over eight years.</p>
<p>Develop an Indigenous data governance strategy so as to unmask inequalities and ensure effective program deliveries with \$81.5 million over three years.</p>	<p>Address antimicrobial resistance by giving \$28.6 million over five years to the Public Health Agency of Canada, Health Canada and the Canadian Food Inspection Agency.</p>	<p>Give \$100 million to the Supporting Black Canadian Communities Initiative.</p>	<p>Change the Climate Action Incentive payment to a quarterly payment</p>
<p>Negotiate agreements with interested Indigenous governments to enable them to raise tax revenues on their lands.</p>	<p>Honour the 100th anniversary of the discovery of insulin with a Diabetes Challenge Prize of \$10 million over five years for novel approaches to prevention, testing and risks, as well as \$25 million over five years for research into diabetes.</p>	<p>Create a luxury tax on new cars and private aircraft (worth at least \$100,000, excluding motorcycles, racing cars, motor homes, farm vehicles etc.) and pleasure boats (at least \$250,000).</p>	<p>Return to farmers in "backstop" jurisdictions—including Alberta and Ontario—an estimated \$100 million from the price of pollution.</p>
		<p>Tax vacation properties of non-residents (See Housing).</p>	<p>Issue federal green bonds, with a target of \$5 billion, to fund projects such as conservation and green infrastructure.</p>
		<p>Reduce the tax rates of zero-emission technology firms by 50 per cent (See Environment).</p>	<p>Improve the commercial viability of carbon capture, utilization and storage technologies, with \$319 million over seven years.</p>
	<p>Implement a Clinical Trials Fund with \$250 million over three years to the Canadian Institutes of Health Research, as well as \$30 million over two years to fund pediatric cancer research.</p>	<p>Investment tax credit for capital in carbon capture projects with a goal of reducing emissions by at least 15 megatonnes of carbon dioxide annually.</p>	<p>Help homeowners undertake energy efficiency upgrades through interest-free loans of up to \$40,000, through giving \$4.4 billion over five years to the Canada Mortgage and Housing Corporation.</p>
	<p>Support people dealing with problematic substance use by adding \$116 million over two years to the Substance Use and Addictions Program.</p>	<p>Change the Climate Action Incentive payment from an annual refundable credit to a quarterly payment.</p>	<p>Enhance wildlife preparedness in national parks with \$100.6 million over five years, plus another \$28.7 million to map areas in northern Canada at risk of wildfires.</p>
	<p>Establish a National Institute for Women's Health Research with \$20 million over five years.</p>	<p>Update the assessments for the Disability Tax Credit, so that an estimated 45,000 additional people will qualify.</p>	<p>Stabilize and conserve wild Pacific salmon and create a Pacific salmon secretariat and restoration centre of expertise with \$647.1 million over five years.</p>
	<p>Support the creation of a national autism strategy with \$15.4 million over two years.</p>	<p>Implement a Digital Services Tax of three per cent on revenue of digital services from Canadian users for businesses with revenues exceeding the an OECD-set threshold of 750 million euros.</p>	<p>Launch of the Canada Water Agency, with \$17.4 million over two years to scope out its mandate including supporting irrigation infrastructure.</p>
	<p>Construct eight plasma collection sites across country, with \$20 million over three years.</p>	<p>Reduce the amount of interest that can be deducted by certain businesses from 40 per cent of earnings in the first year, and then to 30 per cent, to limit excessive deductions by large corporations.</p>	<p>Have Crown corporations with at least \$1 billion in assets report their climate-related financial risks as part of their corporate reporting as of 2022, with smaller organizations having until 2024.</p>
	<p>Provide better palliative and end-of-life care with \$29.8 million over six years, and ensure the medical-assistance-in-dying framework is implemented consistently with \$13.2 million over five years.</p>	<p>Eliminate the tax benefits of so-called hybrid-mismatch arrangements, used largely by multinationals, which should increase revenues by \$775 million over four years.</p>	<p>Promote zero-emission vehicles by providing \$5,000 toward the purchase of such a car for more than 500,000 Canadians; require more than half of passenger vehicles sold be zero emission by 2030 and 100 per cent by 2035; build 50,000 more zero-emission vehicle chargers.</p>
	<p></p>	<p>Strengthen the Canadian Revenue Agency's ability to combat complex tax schemes; amend the Income Tax Act to combat tax collection avoidance schemes.</p>	<p>Implement a Low-Carbon Fuel Procurement Program for the federal government, with \$227.9 million over eight years.</p>
	<p></p>	<p></p>	<p>Build a net-zero electricity grid by 2035.</p>
<p></p>	<p></p>	<p>Phase out thermal coal exports by 2030.</p>	
<p></p>	<p></p>	<p>Recycle plastic bottles through deposit-return systems with a target of 90 per cent by 2029.</p>	
<p></p>	<p></p>	<p>Require all plastic packaging contain 50 per cent recycled material by 2030; make producers of waste responsible for collecting and recycling.</p>	
<p>Fully implement the United Nations Declaration on the Rights of Indigenous Peoples and the Truth and Reconciliation Commission's 94 Calls to Action.</p>	<p>Enforce a vaccine mandate for federal workers, with the government offering paid leave to get the shots; expect collective agreements "include a process for progressive discipline, up to and including termination."</p>	<p>Expand income security programs, beginning with seniors and people with disabilities, to build toward a point where everyone has access to a guaranteed livable basic income.</p>	<p>Set a target of reducing carbon emissions to 50 per cent below 2005 levels by 2030, getting there by eliminating fossil fuel subsidies, enacting carbon budgets on a national and sectoral basis and redrawing the mandate of the Bank of Canada, the Export Development Canada Act and the Canada Pension Plan Investment Board Act to align them with a net-zero target.</p>

New Democratic Party of Canada

<https://www.ndp.ca/>

<https://www.ndp.ca/commitments>

Work with Indigenous peoples to co-develop a National Action Plan for Reconciliation to ensure that the country's laws, policies and practices follow human rights commitments, including cultural and land rights and rights to self-determination and self-government, and establish through legislation a National Council for Reconciliation to provide oversight and accountability for this process.	Establish a Crown corporation in charge of domestic vaccine production.	Expand domestic manufacturing capacity and supply chains for critical sectors including auto, aerospace, shipbuilding, construction materials, pharmaceuticals and personal protective equipment.	Retrofit all buildings in Canada by 2050, beginning with all buildings built before 2020 in the next 20 years, along with requiring large-scale building retrofits in all sectors.
Provide funds to communities to commemorate a National Day for Truth and Reconciliation.	Protect in law the independence of the Chief Public Health Officer and require them to report annually to Parliament with recommendations to improving the country's emergency preparedness.	Scrap the Invest in Canada agency in favour of creating iCanada, a "one-stop shop" to attract investors to Canada and boost Canadian industry internationally.	Create a National Crisis Strategy to help communities—particularly vulnerable, remote and Indigenous ones—reduce and react to climate risks and extreme weather, with long-term funding for adaptation, disaster mitigation and climate-resilient infrastructure.
Fully fund the search for gravesites at former residential schools, along with the maintenance, commemoration, reburial and protection of residential school cemeteries and establishing memorials to those who died.	Establish prescription drug coverage for every Canadian citizen and permanent resident starting in 2022, using \$10 billion in federal funds and working with the provinces.	Convene an auto summit with provincial, municipal, industry and labour leaders to develop a National Automotive Strategy to attract and retain jobs and adapt product lines and manufacturing processes to current consumer and industry needs.	Permanently double the Canada Community-Building Fund and develop a public inner-city bus program.
Appoint a special prosecutor to pursue those who enacted harm in residential schools, and require churches and governments hand over all records that may assist in identifying children in unmarked graves or identifying those who were involved in their deaths.	Work with provinces to develop public infrastructure for secure, accessible virtual health care.	Restore the Automotive Innovation Fund and make contributions to automakers tax-free to help boost production capacity.	Set a target of net carbon-free electricity by 2030, ramping up to completely non-emitting electricity by 2040.
Implement the Canadian Human Rights Tribunal orders that require the government to equally fund child welfare services on reserves, work to implement the Spirit Bear Plan and immediately end government litigation against Indigenous children.	Identify impending gaps and make a plan to recruit and train the medical professionals who will be needed.	Waive the federal sales tax on all zero-emissions vehicle purchases and provide additional incentives of up to \$15,000 per family for ZEVs made in Canada.	Enact an Environmental Bill of Rights that enshrines the right to a healthy environment.
Fully implement Jordan's Principle, working with provinces to end delays and ensure access to health and educational services, end the court challenge and ensure Jordan's Principle applies to children living off-reserve as well.	Regulate natural health products with stand-alone legislation.	Create a "centre of excellence" for research and development of ZEVs to advance technologies such as hydrogen, batteries and energy storage.	Beef up the Canadian Environmental Protection Act to better protect people against toxic substances in common products like cosmetics.
Work with Indigenous communities to implement a co-developed and fully-funded Indigenous National Housing Strategy within the first 100 days in office.	End private, for-profit long-term care and bring these facilities under "the public umbrella."	Develop a national industrial strategy to build "an advanced low-carbon manufacturing economy."	Immediately ban single-use plastics and protect workers in that sector by supporting a transition for these facilities to make new products.
Expand financial assistance for post-secondary education for Indigenous children who grew up in care.	Develop national standards for home care and long-term care, regulated by the same principles as the Canada Health Act, with funding tied to meeting standards, and a basket of core home care services that would be covered by provincial insurance plans.	Require the use of Canadian-made steel and aluminum for infrastructure projects.	Enact new legislation to ban the export of plastic waste and reduce electronic waste by removing unnecessary restrictions preventing people from repairing devices.
Work with the provinces to establish Indigenous history education programs based on the TRC's Calls to Action, and ensure the development and implementation of these programs is led by Indigenous people.	Work with provinces to create a "roadmap" to incorporating universal dental care into the public healthcare system.	Enact a price cap on cell phone and internet bills to ensure Canadians don't pay more than the global average.	Launch a 10-year nature plan to reverse species loss and curb the import and domestic trade of wild animals.
Build a treatment centre for residents affected by long-term mercury exposure, and compensate families affected by mercury poisoning in Grassy Narrows.	Establish mental health care for uninsured Canadians.	Require providers to offer a basic plan for wireless and broadband that is comparable to affordable plans available in other countries.	Force oil companies to pay to clean up inactive wells, creating jobs in the process.
Create a Northern Infrastructure Fund to fast-track investment to improve infrastructure such as roads and broadband internet.	Establish a national perinatal mental health strategy to support families before and after the birth of a child.	Require telecom providers to offer unlimited wireless data at affordable rates "as exist elsewhere in the world."	Develop a national food waste strategy to reduce the amount of food currently ending up in the garbage.
Implement the Calls for Justice from the National Inquiry into Missing and Murdered Indigenous Women and Girls, including establishing a comprehensive plan to address violence and ensure that anyone fleeing it has access to culturally appropriate programming, emergency shelters and transitional housing	Declare a public health emergency on the opioid crisis.	Abolish data caps for broadband internet.	Protect 30 per cent of the country's land, freshwater and oceans by 2030.
Ensure full gender equality for First Nations status so that Indigenous women can pass on the ability to qualify for Indian status registration to their children.	Work with provinces and healthcare professionals to create a safe supply of medically regulated alternatives to street drugs, support overdose prevention sites and expand access to treatment on demand.	Introduce a Telecom Consumers' Bill of Rights.	Offer low-interest loans to households making energy-efficient improvements, with targeted supports for low-income households and renters.
	Launch an investigation into the role of drug companies in the crisis and seek financial compensation for the public costs.	Tax the sale of homes to non-residents (See Housing)	Create a Civilian Climate Corps with jobs for young people performing conservation work such as restoring wetlands and planting billions of trees.
	Strengthen the Accessibility Act to cover all federal agencies equally, with the power to make and enforce accessibility standards quickly.	Introduce a temporary COVID-19 excess profit tax of 15 per cent tax on large corporate windfalls earned during the pandemic (note: the threshold for this is not specified).	Update the National Building Code to ensure that by 2025, every new building in Canada is net-zero.
	Expand income security programs so that everyone with a disability has a guaranteed livable income.	Increase the capital gains inclusion rate to 75 per cent.	Establish a Canadian Climate Bank to boost investment in renewable energy, energy efficiency and low-carbon technology, support provinces interested in inter-connecting their power grids and implementing smart grid technology and support made-in-Canada manufacturing of renewable energy components and technology to scale up Canada's clean energy industry.
	Develop and implement a national Autism strategy to coordinate support for research, provide access to needs-based service, promote employment and expand housing options.	Boost the top marginal tax rate by two points to 35 per cent for those making over \$210,000 a year.	Create and fund a Climate Accountability Office to independently oversee federal climate progress, engage with the public and make recommendations on achieving targets.
	Enforce the Canada Health Act to require all provinces to make medical and surgical abortion available in all areas of the country.	Enact a luxury goods tax on items like yachts and private jets.	Appoint a Climate Emergency Committee of Cabinet and establish a Climate Emergency Secretariat in the PMO.

		<p>End the ban on blood donation by men who have sex with other men, moving instead to behaviour-based screening based on public health evidence.</p>	<p>Enact a one per cent wealth tax on people with more than \$10 million in wealth.</p>	<p>Create an Office of Environmental Justice to address the disproportionate effects of environmental damage on low-income, radicalized and otherwise marginalized communities.</p>
		<p>Work with provinces to ensure equal access to gender-confirming surgery and medication and that these services are covered by public health plans.</p>		<p>Roll back the three-point cut to corporate income tax enacted by the Harper government, to bring it back to the 2010 level of 18 per cent, while keeping the small business tax rate at its current level.</p>
				<p>Close loopholes by eliminating bearer shares, forcing companies to prove economic reasons for offshore transactions and improving transparency on taxes paid by large corporations. Boost compliance funding to Canada Revenue Agency's enforcement section for international and corporate taxes. Make the Canada Caregiver Tax Credit refundable so that low-income recipients benefit.</p>
<p>Green Party of Canada</p>	<p>https://www.greenparty.ca/en https://www.greenparty.ca/en/candidates</p>	<p>Ramp up renewable energy development in First Nations communities and on Indigenous lands, through partnerships with Indigenous people, and UNDRIP principles of self-determination</p>	<p>Create a national safe supply as a harm reduction tool to prevent illicit drug overdoses.</p>	<p>Establish a Guaranteed Livable Income, a basic income at set at "livable" levels region by region</p>
		<p>Implement the calls for justice from the National Inquiry in Missing and Murdered Woman and Girls.</p>	<p>Develop a national mental health strategy.</p>	<p>Target 60 per cent reduction in GHG emission by 2030, with clear timelines.</p>
		<p>Implement immediately all the calls to action from the Truth and Reconciliation Commission into residential schools.</p>	<p>Create a universal pharmacare program.</p>	<p>End new pipeline construction, fracking and oil and gas exploration projects and use those funds to invest in the infrastructure and green sectors.</p>
		<p>Provide sustainable funding for new and existing Indigenous healing centres to address the harms caused by residential schools. Stop government's fight against Canadian Human Rights Tribunal rulings on Indigenous children in care.</p>
